

Familiar To Me & My Interests

Signs of Autumn

acorns

autumn leaves

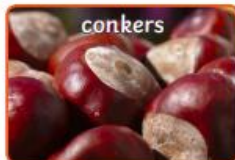

blackberries

brown leaves

sweet chestnuts

conkers

fir cone

harvester

hedgehog

orange leaves

pumpkins

red leaves

red squirrel

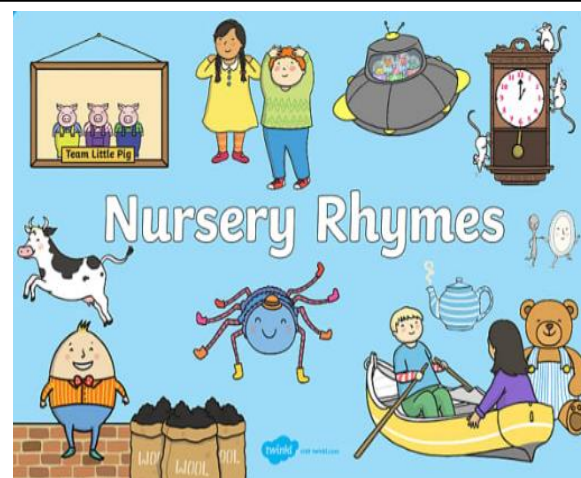

wheatfield

yellow leaves

Autumn is colder than Summer. Many foods are harvested around Autumn time from farms.

In autumn, many trees lose their leaves and some animals prepare to sleep over winter (hibernate).

My Family

Our families can be all different shapes and sizes. We care for each other and keep each other happy and healthy.

Both you and your family are unique. Unique means no other is exactly the same.

Day & Night

Day is when the sun is in in the sky.

Night is when the moon is in the sky.

Nocturnal Animals

Nocturnal means animals that are awake at night and sleep during the day.

cat

owl

badger

bat

hedgehog

hamster

fox

toad

otter
