

# People Who Help Us

There are people in the community who can help me. Adults do lots of different jobs.

A lollipop lady helps me cross the road.

A teacher helps me learn.

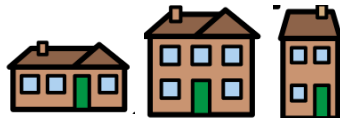

A policeman helps keep me safe.

A firefighter helps put out fires.

A doctor make me feel better.

A dentist helps me look after my teeth.

Homes look different depending on when they were built.

Inside your home may have a fridge, a sofa, a table, beds, an oven and other furniture and appliances.

## What Job Does a Firefighter Do?

A firefighter's job is to keep everyone safe. They put out fires. They use their equipment to help rescue people who are trapped.

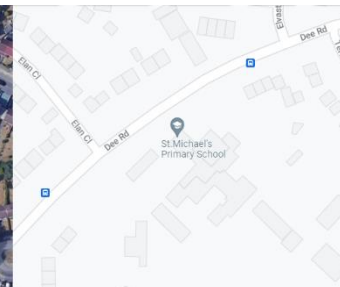

## Maps

A map shows us where something or someone is. Roads, buildings, parks and rivers often appear on maps.

By looking at a map of our local area, we can locate shops, parks and flats near the school.

## Oral health

Teeth need to be cleaned twice a day to keep them healthy.

Brushing carefully is important to keep our whole mouth clean.

## Parts of the Body
